Subject: REQUESTING INPUT on Table of Tasks on OR CZARA & Thoughts on Briefing Paper
Attachments: OR CZARA Briefings Table.xlsx

Hi All,

I have been developing a task table of all that need to be done between now and the Governor's meeting (which I will check on whether it can be rescheduled). Please review and provide your input.

I really liked the briefing paper. It is clear how much work went into the development of this paper. Do you think we should include information on our vulnerability with respect to interim condition approvals (which still need to undergo public process review as well as being updated)? Are the conditions related to agriculture fully approved or interim approved? By the way, Alaska withdrew from the program.

Cheers,

Jayne
